## EDUCATION

- ❖ BS CS | GC University| FSD Pakistan CGPA: 3.4 | 2023
- ❖ XII (BISE) | BISE FSD 92.0%| 2019

## ACADEMIC PROJECTS

- ❖ **Socket Exploration: Creating a WhatsApp Clone**  
I developed a WhatsApp clone to delve into socket programming, specifically utilizing Socket.IO. Through this project, I gained expertise in web sockets, audio streaming, video streaming, and various real-time data functionalities closely related to WhatsApp.
- ❖ **OpenAI API PDFs Subscription Based Web App**  
I created a subscription-based web app integrating OpenAI API, with PayPal and Stripe payment gateways. Implemented authentication, authorization, and RESTful API using TypeScript within Next.js and tailwind CSS.
- ❖ **LMS System For Managing Learning Platform**  
I encountered an LMS (Learning Management System) built on the MERN stack, where I familiarized myself with CMS functionalities within an LMS. I gained hands-on experience in uploading courses and managing content

## SKILLS

- ❖ HTML5, CSS3, JavaScript, Typescript,
- ❖ React.js, Node.js, Express.js, Next.js,
- ❖ MERN stack
- ❖ Bootstrap 5 , Tailwind CSS. Material UI, Redix UI, MDB Bootstrap
- ❖ MySQL, MongoDB

## Goal

My goal is to take my expertise to the next level, and I believe that by working with talented minds, I'll immerse myself in their community and gradually become like them. My goal is to achieve senior and top-level expertise in the fields of MERN stack and Next.js, and I seek your assistance in this endeavor

## Residence

I recently started living in Lahore, but my hometown is Faisalabad.
